"Moon Cycles Card" by Sharon Russell

I started studying astrology when I was 19 and in college with a major in Biology and a minor in Art.....however, once I got my hands on my first astrology book I couldn't put it down! Since I will be 60 soon (October 28th) you can imagine how many years I've been into star gazing. Over the years of working with women in women's groups I came to understand that astrology needed a more feminine perspective. I am dedicated to redefining the wonderful language of the stars into a language that woman can relate to and benefit from. I use the traditional planets and ascending sign

ALONG WITH the FEMININE asteroids, your 29 year LUNATION CYCLE (which tells the story and time frame of your soul's journey around the wheel so that you can view your life in a more cyclic and evolutionary perspective), your PROGRESSED CHART which continues with your soul's current planetary placements (once you are born, you begin to breathe, and with each new breath you take, your planets begin to move along with you - side by side your natal chart reading also includes a picture of where your soul is taking you right now!). I look at Pluto initiations - as they are always so intense.

I will also check to see if any current goddess asteroid transits are affecting your feminine directed work in the world.

I LOVE ASTROLOGY ♥ ♥ ♥ and the way in which the **LIGHT OF GODDESS** shines through you as the HEAVENLY bodies in your personal chart reveal.

Here are some of the chart services I offer:

« Natal reading with current Lunation Phase, Progressions and Transits \$300

I will spend at least 3 ½ to 4 hours in preparation BEFORE I see or talk to You. This is a 1 ½ hour reading.

(Personal consult, phone or email. Also taped)

« Natal reading ONLY \$195

Your NATAL chart is your birth moment chart which includes all planets with aspects, important feminine asteroids, and life path

(Personal consult, phone or email. Also taped)

« Current Update with Lunation, progressions and transits. \$225

I spend about 3 hours in prep BEFORE I see you

(Personal consult, phone or email. Also taped)

« I also offer a one hour phone or internet consult \$ 75

I need about 30+ minutes looking at your chart first

I will need the following information to do your reading:

YOUR NAME - DATE OF BIRTH - BIRTH TIME - LOCATION (CITY AND STATE)

I can do your reading without your exact time of birth although I prefer if you try to get it - many women find the time on their birth certificates. You may already have one in your wallet, can obtain one from the hospital where you were born, your mom, dad or sibling sometimes remember. If you cannot get it, then I will use your sun on the ascendant which is 95% effective.

I wish you all my best...may your stars send you Grace, Beauty, & Love, always Love, ♥
